

Mini-Symposium  
**Imaging and the cytoskeleton**  
Friday 22 November 2019  
LIPHY conference room

9am François Nedelec, Univ Cambridge  
*Mechanical scaling of blood platelets*

9.45am Karin John, LIPHY UGA  
*Lattice defects induce microtubule self-renewal*

10.15am Break

10.45am Maria Ledesma, UP Madrid  
*Automatic cell tracking and motion analysis during embryo development*

11.30am Guy Blanchard, Univ Cambridge  
TBC

noon break

2pm Pierre Recho, LIPHY UGA  
TBC

2.30pm Jocelyn Etienne, LIPHY UGA  
*The actomyosin drive of convergence-extension and folding in Drosophila embryo*
